Hi Brian – Sorry that I forgot to copy Mary. I'll try to keep her as well as you in the loop next time.

Importance: High

Hi Paula,

Thanks for the notes from the January meeting. They are very helpful. I will look for our most current information on Bullion and Bandora. We are planning to do an EECA on Bandora in the future. However, I do not think we have any data on Paradise. I'll look into that too.

Just a quick note that Mary Blanchard of the San Juan National Forest should be added to your email distribution list. She did attend the meeting and will be the main POC for the USFS involvement with the Upper Animas projects. However, I would like to remain on the mailing lists for meetings, filed trips and such. Mary and I will help in any way possible.

Thanks!

Brian

Importance: High

All – Attached is a summary of the meeting for the Upper Animas River Watershed “Global” RI Scoping that was held on Wednesday, January 21, 2015. I sent out a draft summary of the meeting on February 3 and received comments from Brent Lewis, Lisa Richardson and Sherry Skipper. I’ve incorporated their comments into the summary. If there are other items that should be included, please let me know ASAP.

I’ve highlighted throughout the summary “Action Items” and have designated **in bold** an individual or agency as the most likely “candidate” as the lead for an Action Item. I didn’t not designate a lead for each action item but hope we can sort that out in the near future.

If you have any questions, please feel free to contact me. Also, please be aware that Liz Fagan is working with me on the Upper Animas and she should be copied on emails. Liz is an experienced RPM in the Superfund Remedial Program.

Thanks.

Paula Schmittiel
